

IMPERIAL  EASTMAN  
ANTI-FREEZE TESTERS  
BATTERY HYDROMETERS  
BATTERY FILLERS

A complete line of precision instruments for testing engine coolants and battery electrolytes. Insist on Imperial-Eastman products for accurate, long lasting service.

# Now... TEST ANTI-FREEZE AT ANY ENGINE TEMPERATURE

## HOT

OR

## COLD

Now you can get fast, accurate readings at any engine temperature with Imperial-Eastman Universal Direct Reading Anti-Freeze Testers. For all anti-freezes, including year 'round types such as Dow's Dowgard and DuPont's Telaar. Tests Prestone, Zerex, Thermo Royal, etc. as well as alcohol and methanol.

Magni-vision slide calculator and extra large protection numbers for quick readings... even in poor light. Clear float calibrations guarantee exact scale measurements.

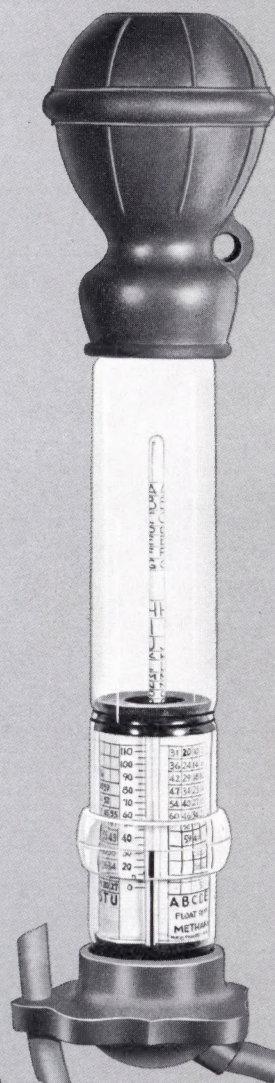

Heavy-duty glass parts resist breakage. Thermometer and chart hermetically sealed against moisture — stay clear, clean, easy-to-read at all times. Rubber cushioned float, chart, and thermometer to prevent damage. Each unit tested and re-tested to assure accurate performance.

**IMPERIAL-EASTMAN  
No. 556-TA  
STANDARD  
ANTI-FREEZE TESTER**

List Price: .....\$9.85 ea.

Dealer Net: .....\$7.39 ea.

Preferred by maintenance and service mechanics for fast, accurate performance. For use on engines at warm or normal operating temperatures. Range 70° to 180° F.

**IMPERIAL-EASTMAN  
No. 566-TA  
COLD ENGINE  
ANTI-FREEZE TESTER**

List Price: .....\$10.75 ea.

Dealer Net: ....\$8.06 ea.

Saves time and fuel. Eliminates engine warm-ups... reads accurately at cold engine temperatures. Ideal for fleets, car dealers, service and maintenance shops, etc. Range: 0° to 110° F.

## FREE

Wall Hanging Rack Included with Both 556-TA Standard and 566-TA Cold Engine Testers.

**YOU NEED BOTH For Fast Customer Service!**

## ECONOMY TESTER FOR ALL PERMANENT TYPE ANTI-FREEZE

Precision instrument for testing all types of Ethylene Glycol anti-freeze (Prestone, Zerex, Thermo-Royal, etc.) Reading made swiftly from crystal clear scales. Large figures on float and chart assure accurate measurements. Thermometer and chart sealed to stay clean and clear at all times.

Beaded float can't stick or lean sideways. Heavy duty, fully annealed glass parts.

**No. 548-T Single Solution Tester**

List Price: \$3.82 ea. .... Dealer Net: \$2.87 ea.

### IMPERIAL-EASTMAN ANTI-FREEZE TESTER REPLACEMENT PARTS

## THE FINEST IN BATTERY TESTING EQUIPMENT

### Tests Both 6 and 12 Volt Batteries

**No. 515-T Thermometer Type** — Precise readings adjusted for temperature of battery electrolyte. Can be used with fast chargers. Service instructions printed right on barrel to simplify testing.

Shatterproof glass jar stands up under hard use. All scales printed black on yellow for maximum visibility. Durable hard rubber tip.

Float calibration: 1.150 — 1.300 in 5° intervals. Weight: 8 oz. Length overall: 14½ inches. Gov't Spec. GG-H-941C — Class 1 - Style A.

**No. 515-T Battery Hydrometer**

List Price: \$4.10.....Dealer Net: \$3.08

**No. 521-T Thermometer Type** — Budget priced new hydrometer gives highly accurate readings, corrected for temperature of battery electrolyte. Can be used with fast chargers. Compact, lightweight, designed to withstand hard use. Large, clear scales for easy reading. Pliable 3 inch rubber tip.

Float calibration: 1.100 — 1.300 in 5° intervals. Weight: 4½ oz. Length overall: 12½ inches. Gov't Spec. GG-H-941-C — Class 1 - Style A.

**No. 521-T Battery Hydrometer**

List Price: \$2.94.....Dealer Net: \$2.21

**No. 518-T Economy Hydrometer** — Recommended for testing small batteries and batteries low in electrolyte. Ideal for close quarters work.

Easy-to-read, non-sticking float measures battery condition with only small amount of electrolyte. Heavy duty, annealed glass parts assure long life. Large color blocks on float give general reading at a glance.

Float calibration: 1.100 — 1.300 in 5° intervals. Weight: 7 oz. Length overall: 10 7/8 inches.

**No. 518-T Battery Hydrometer**

List Price: \$2.00.....Dealer Net: \$1.50

#### IMPERIAL-EASTMAN BATTERY HYDROMETERS REPLACEMENT PARTS

Tester Number	Float Number	Barrel Number	Rubber Bulb Number	Rubber Tip Number	Rubber Plug Number
515-T Dealer Cost	5150-T \$0.89	5151-T \$1.79	5152-T \$0.69	5153-T \$0.75	5154-T \$0.23

519-T Dealer Cost	5190-T \$0.80	5161-T \$0.80	5152-T \$0.69	5193-T \$0.57	5154-T \$0.23
521-T Dealer Cost	5211-T \$0.92	5212-T \$0.68	5213-T \$0.69	5210-T \$0.92	5214-T \$0.23

## IMPERIAL-EASTMAN BATTERY FILLERS

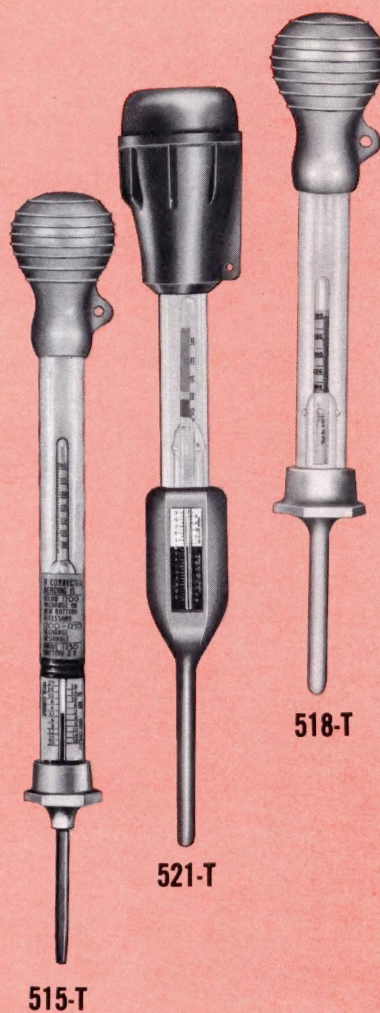

Preferred battery fillers for fast, efficient service. Red rubber squeeze bulbs are exceptionally live, fast-acting and durable. Polished hard rubber tips.

**No. 581-T Straight Tip** — Lightweight: easy to handle. 6 oz. capacity, 10¾" overall length, weight: 7 oz.

List Price: \$1.05 Dealer Net: \$0.79

**No. 582-T Curved Tip** — For close quarters work. Hole ⅜" from tip automatically removes excess water from battery. 8.2 oz. capacity, 10¾" overall length, Weight: 8 oz.

List Price: \$1.30 Dealer Net: \$0.98
